THE DEATH RAY.

- 1.(22) THE ONLY and Exclusive Motion Picture of the H.Grindell-Matthews Death Ray made with the authorization and permission of the inventor H.Grindell-Matthews.
- 2.(20) Fifty years ago Jules Verne predicted in his books, amongst other wonderful future inventions THE SUBMARINE. At that time these predictions were considered IMPOSSIBLE.
- 3.(4) TODAY
- 4.(17) THE FIRST DEVICE FOR TRANSMITTING MESSAGES WAS INVENTED BY CLAUDE CHAPPE in 1792. This device was placed between Cities on hilltops and "wig-wagged" messages.
- 5.(9) Today the wireless station at Eiffel Tower Paris, communicates with America.
- 6.(8) Part of the wireless equipment, 900 feet above the ground.
- 7.(12) Therefore we should remember that history can repeat itself and the seemingly impossible become a reality.
- 8;(11) Thus the Grindell-Matthews Death Ray, in the future, may control the destiny of the world.
- 9.(7) Mr. H. Grindell-Matthews. The Inventor of the Grindell-Matthews "Death Ray".
- 10.(16) Mr. H. Grindell-Matthews was one of the Pioneers of Wireless Telephony and the first man to communicate with the Pilot of an Aeroplane whilst in flight.

THE DEATH RAY.

- 12.(9) By this invention a boat with no one on board was controlled from the shore.
- 13.(18) Mr. H.Grindell-Matthews is considered one of the boldest thinkers of Modern Times and today predicts -

- 15.(9) Leaving Croyden, England, by Aeroplane for Paris to supervise the making of this film.
- 16.(16) There will now be shown the First and only Motion Picture Reproductions of the experiments that have been carried out with
"THE DEATH RAY".
- 17.(14) The First experiment will show the "Lighting" of an electric globe, solely by the "Electric Energy" controlled by the Death Ray..
- 19 18.(20) The General principle of the "Death Ray" is that the object is first located by the "Electrical Beam" which forms a "Path" through the "Controlled Electrical Energy" is transmitted.
- 20 19.(3) Switching on the "Electrical Beam."
- 18 20.(12) An Electric Light with no electrical connection, merely suspended between the fingers of the two assistants.
- 21.(11) Releasing the "Electric Energy" which according to the power used can either
BURN- OR- ILLUMINATE.
- 22.(15) THE FUTURE
The destruction the Death Ray may be able to accomplish with its power to illuminate or Burn, at great distances, would be unlimited.

THE DEATH RAY.

- 23.(5) Mounted on its enormous insulated porcelain base.
- 24.(13) It may possibly be within the power of the Death Ray to destroy a City! even if it were located on a high commanding position.
- 25.(9) The second experiment will show how Gun Powder can be exploded by using an increased "Energy".
- 26.(8) A pan of ordinary Gun Powder is placed on a piece of non-conductive glass.
- 27.(16) In the future it may only be necessary to increase the "Destructive Energy" of the Death Ray and thus ~~xxx~~ explode any arsenal or ammunition dump.

- 38.(5) The "Electrical Beam" is focused on the magneto.
- 39.(19) Releasing the destructive force! The "Firing" is immediately destroyed and the engine stopped.
- 40.(18) Within the radius of the future DEATH RAY, it may be possible that no aircraft could exist! This is perhaps the greatest factor amongst the many buses of this wonderful invention ---
